* The Earnings Coverage Ratio, the Quarterly Return on Average Assets (annualized), and the Quarterly Return on Average Equity (annualized) for quarter-end June 30, 2020 were adjusted to exclude \$92.2 million, net of tax, of provision related to the initial allowance for credit losses recorded for the acquired Non-PCD loans and unfunded commitments resulting from the acquisition of CenterState Bank. The initial one-time provision for credit losses recorded in June 2020 is the result of the new accounting treatment for expected credit losses under the Current Expected Credit Loss Standard (ASU 2016-13).

** The calculation of Core Capital and Reserves changed in the first quarter of 2020 with the adoption of CECL. Core Capital and Reserves is now the total of Tier 1 Capital less the modified CECL transitional amount plus the allowance for credit losses (excluding the allowance for unfunded commitments). This calculation is used above to calculate the ratios of Nonperforming Assets/Core Capital and Reserves and of Core Capital and Reserves/Total Loans for 2020.

*** In the calculation of the Qtrly Efficiency Ratio (annualized) for the fourth quarter 2020, total non-interest expense included an one-time charge for the termination of cash flow swaps of \$37.8 million. This was the main factor in the increase in the ratio from third quarter 2020 to fourth quarter 2020.

Note: CenterState Bank Corporation merged into South State Corporation on June 7, 2020. The results presented above for the reporting periods ending after June 7, 2020 reflect the financial ratios for South State Bank, N.A. (new merged bank) while historical results for the previous quarters

reflect those of CenterState Bank, N.A.
